

Dual Representation

One firm - two teams - keep your finance on track with our dual representation service saving you time and costs.

Take advantage of our dual representation proposition with Paris Smith acting for both InterBay and your client. With dual representation, the mortgage legal process being handled by two teams within one firm means the timescale between formal offer and completion should reduce significantly, speeding up the overall application process.

In addition, your client may save on their overall cost for legal work, with Paris Smith offering attractive combined costs.

Property finance

Our experienced team of property lawyers is on hand to help guide you smoothly and efficiently through the process when it comes to refinancing or securing purchase funding with InterBay.

With lawyers acting both for you and also for InterBay within the same firm, we are a trusted partner and share your vision for a successful outcome.

Our aim is to make the lending process as transparent as possible delivering timely and cost effective services to secure the completion of your funding.

We are a multi-disciplinary team. Our property department at Paris Smith comprises some 45 lawyers covering all disciplines from landlord and tenant, development including site assembly, planning, construction and plot sales, to portfolio, retail and leisure work and of course residential. We would value working with you to achieve your goals and to continue to support you and your property needs in the future.

Testimonials

Chambers Legal Directory 2024: "One referee says "The team has a very strong technical ability and is good at finding compromises in some complex issues;" whilst another adds "Exceptional legal advice delivered at a sensible price. They are commercial lawyers and are willing to listen.""

Instruction process

Please contact Jin Takhar and Nicola Watson to discuss your requirements and to find out more about dual representation. They will assist you with your particular transaction.
